

# **FTSI** Security Solutions

**VIDEO SURVEILLANCE** - FTSI's video surveillance systems combine the latest in digital video recording and IP camera technology to provide a reliable system that our customers can count on when they need it most.

**ACCESS CONTROL** - Control access to restricted and sensitive areas for your branch or main office. Whether it is controlling access for a single site or multiple branches, our solutions can be scaled to meet your needs.

**INTRUSION ALARM** - FTSI uses a custom-designed intrusion alarm system that meets the latest industry standards to protect your assets 24/7. Our extensive experience and knowledge of best practices allows us to design the right level of security based on your floor plan and equipment within your branch.

**ATM VESTIBULE ACCESS CONTROL** - Providing a safe and secure environment for customers to perform ATM transactions after-hours is a challenge. FTSI's vestibule access control can help by granting access with the swipe of an ATM card.

**ALARM MONITORING SERVICES** - Protect your branch locations with 24/7 Alarm Monitoring from FTSI. FTSI has partnered with a UL listed Five Diamond Certified central station to provide you with the peace of mind that your alarm events will be responded to in a timely and professional manner.

**ANTI-SKIMMING SOLUTIONS**- FTSI's anti-skimming solutions provide a comprehensive portfolio of solutions that are aligned to protect against the key modes of security attacks. Through the deployment of multi-layered security solutions, the direct benefits include enhanced customer confidence and mitigating compliance fines, penalties and liabilities.
