

Vero Edge
Cash Recycler

ARCA  Financial

Vero Edge

Ultimate capacity, speed and security.

The Product

The Vero Edge is our fastest, highest capacity recycler with continuous feed input to process even the largest transactions quickly. Its quick count function lets you replace bulky currency counters and the latest cassette technology reduces double picking errors.

Unparalleled security features address several key points of cash exposure in the branch, mitigating those risks. The Vero Edge is capable of quick, unattended self-auditing for verifying large deposits to catch discrepancies early rather than at the end of the day.

Right Size, Right Fit

Some cash environments call for a high-capacity, high-speed cash recycler to maximize efficiency. The Vero Edge meets the high capacity needs of a central vault or the speed requirements of a cash-intensive merchant window, for example.

Its user-friendly design fits in a variety of cash environments and can be used for both standing and sitting applications. Like all other ARCA recyclers, the Vero Edge's modular design gives you more runtime since you can turn off individual cassettes without having to shut down the whole unit.

Specifications

- Cassette recycling storage technology
- Capacity equates to \$300,000+
- 10 notes/second continuous feed processing
- Serial number recognition
- Embedded error management
- Up to 15,850 notes dispense capacity, Up to 13,900 notes recycling capacity
- Cassette tamper indicator
- Denomination flexibility
- Automatic, unattended self-auditing
- 8" tilting color touch screen
- Dimensions (h x w x d):
26.8 x 14.7 x 44.4 in
681 x 374 x 1128 mm
- Weight: 860 lb / 390 kg
